

Biodrier G-Wave

Customise your dryer to promote, advertise or brand your washroom. Contact us to find out more.

Compact Contemporary Design

The new Biodrier G-Wave squeezes a lot of power into its compact design. It has a high powered motor with adjustable speeds, super fast air jets and a unique no mess design.

No Mess

Unlike most other hands under dryers the G-Wave has a water tank which stores any excess water blown from the hands, keeping washrooms clean and dry. The water tank also has an intelligent sensor that informs you when it needs to be emptied.

Anti Bacterial Filter

The Grade 13 HEPA air filtration system removes dust and bacteria, delivering pure clean air to the hands.

No Fuss Maintenance

LEDs on the front of the machine will let you know when the machine needs either the filter replacing or the water tank emptying. Unlike some other hand dryers, Biodrier filters are easily changed by you and the G-Wave filter lasts for up to 50,000 uses!

Easy To Control, With Adjustable Noise Level

The Biodrier G-Wave has two speed settings giving you greater control over noise levels, which also allows you to save even more energy!

Low speed: 700 Watts - 58dba | High speed: 1200 Watts - 80dba
