

# Biodrier Business<sup>2</sup>

## Gel Replacement & Maintenance Instructions

Periodic cleaning of the unit is recommended to ensure optimum performance.

- Switch to service mode located on the top left side of the dryer.
- Wipe the cover with a soft cloth and a mild cleaning solution. Do not Soak. Never use abrasives to clean the cover.

### ⚠ WARNING

- Never spray water directly onto hand dryer
- Never use any abrasives or harsh chemicals
- Turn off electricity prior to cleaning the hand dryer

5. Disassemble drain tank and rinse clean using a disinfectant, then replace. Moisturising gels should be replaced every month.

6. Wipe down the external surfaces of the Biodrier Business hand dryer with a soft cloth. Switch power back on and test operation.

1. Pour a cup of water down drain hole. Use cleaning brush supplied to clean drain hole.

2. Remove drain tank and empty.

4. Clean filter casing by wiping with soft damp cloth. Replace the antibacterial filter every 3 months. Slide filter back into place.

3. Remove filter.

## Material Safety Data Sheet for Biodrier Gels

In compliance with Regulation (ED) No.1907/2006 (REACH)

Date prepared: 14/07/09 Date revised: N/A (first edition)

### 1. IDENTIFICATION OF THE PREPARATION AND OF THE COMPANY / UNDERTAKING

**Product name:** Biodrier gel blocks -Coastal

**Description:** Gel block for controlled release of fragrance, biocide and moisturiser in conjunction with Biodrier

**Company:** Biological Preparations Ltd, Beaufort Court, Atlantic Wharf, Cardiff, CF10 4AH

### 2. HAZARDS IDENTIFICATION

**General:** Prolonged skin contact may cause very minor irritation

**Hazard symbol:** None

**Environmental hazard:** Preparation is biodegradable

### 3. COMPOSITION / INFORMATION ON INGREDIENTS

**Chemical composition:** Gelling agent, natural plant extracts, fragrance and dye

**CAS number:** Not applicable - product is a preparation

### 4. FIRST AID MEASURES

**Exposure by skin contact:** Wash affected area with water

**Exposure by eye contact:** Flush eyes with plenty of water and seek medical attention if irritation develops

**Exposure by ingestion:** Rinse mouth and throat with water and give sips of water to drink

**Exposure by inhalation:** Remove victim to fresh air and seek medical attention if symptoms occur

### 5. FIRE FIGHTING MEASURES

**Extinguishing media:** Water, foam, dry chemical or carbon dioxide

**Exposure hazards:** None known

**Protection of fire-fighters:** Not applicable

### 6. ACCIDENTAL RELEASE MEASURES

**Personal precautions:** Refer to section 8

**Environmental precautions:** Avoid excessive release to drains

**Clean-up procedures:** Transfer the material to waste containers labelled in the same way as the original containers. Small releases should not pose any hazard to the local environment. Wash spillage site with water.

### 7. HANDLING AND STORAGE

**Handling requirements:** The material should be handled under good housekeeping practices

**Storage conditions:** Store in a cool and dry place. Avoid freezing temperatures and temperatures above 45°C

**Packaging materials:** Packaging can be recycled

### 8. EXPOSURE CONTROLS

**Engineering measures:** None

**Respiratory protection:** No special ventilation is necessary

**Skin protection:** Avoid prolonged skin contact. In the case of direct handling of the material, the use of gloves will reduce exposure to the preparation and any possible irritation

**Eye protection:** Not required

### 9. PHYSICAL AND CHEMICAL PROPERTIES

**Appearance:** Pale blue cube

**Odour:** Coastal

**Solubility:** Soluble

### 10. STABILITY AND REACTIVITY

**Stability:** Product is stable under normal conditions of use

**Conditions to avoid:** Excessive temperature variations, below 0°C or above 45°C

**Materials to avoid:** Strong acids or alkali and strong oxidizing agents

### 11. TOXICOLOGICAL

**Acute toxic effects:** Not determined

**Local effects:**

**Skin irritation:** There may be some irritation at the site of contact

**Eye irritation:** In the event of contact there may be slight irritation and redness

### 12. ECOLOGICAL INFORMATION

**Mobility:** The preparation is dispersible in water and is therefore likely to distribute predominantly to the aqueous environment

**Persistence and degradability:** The preparation is readily biodegradable

**Accumulation:** Preparation is not expected to bioaccumulate due to its solubility

**Ecotoxicity:** The preparation has been formulated to cause minimal environmental impact and is not anticipated to pose any environmental hazard

**Other adverse effects:** Adverse effects in the sewage treatment plant are not anticipated

### 13. DISPOSAL CONSIDERATIONS

**Disposal operations:** Dispose of in accordance with local regulations

**Disposal of packaging:** Empty packaging can be recycled

### 14. TRANSPORT INFORMATION

**International Regulations:**

**Land:** Not applicable

**Inland waterways:** Not applicable

**Sea:** Not applicable

**Air:** Not applicable

### 15. REGULATORY INFORMATION

**EC Regulations:** This preparation does not meet the criteria for classification as dangerous in accordance with Directive 1999/45/EC. There are no special labelling requirements

### 16. OTHER INFORMATION

**Legal disclaimer:** The information provided is to the best of our knowledge correct and accurate. However, all data instructions and suggestions should be used for guidance purposes. This company shall not be held liable for any damage resulting from handling or contact from the above product
